Rotary Instruments

# FONA Colibri turbines

## RELIABLE, POWERFUL, QUIET

FONA Colibri turbines are taking reliability to the next level. Integrated patented AeroDynamic brake system ensures protection of the rotor at the highest speeds hence prolonging its lifetime. Especially designed spray nozzles and high quality ceramic ball bearings in the rotor reduce the noise. This makes Colibri more pleasant to work with. Lighting allows perfect visibility even in the posterior regions. As a real Colibri, FONA turbines have an excellent power-to-size ratio.

### MORE POWER

Colibri turbines deliver excellent power-to-size ratio. AeroDynamic brake and specially designed cooling spray nozzles optimize power/noise/speed balance.

### HIGHEST QUALITY

Resistant material and sure grip finishing. Precise rotor technology with high quality ceramic bearings. Manufactured with German precision.

### QUIETER THAN EVER

Special design of the cooling system and new rotor are combined with high quality bearings for quiet operation.

# FONA Eagle contra-angle handpieces

## DURABLE, LIGHTWEIGHT, FAST

FONA Eagle contra-angle handpieces are perfectly balanced and anatomically shaped for easy and natural grip. Smooth design together with built-in antiretraction technology is easier to clean and gives extra protection against cross contamination. Biocompatible durable material used in these instruments prevents allergic reactions of your patients. Small head in combination with light allows to see clearly the working area. Three transmission versions (6:1, 1:1, 1:5) allow you to work with the speed up to 200,000 rpm.

### SMALL HEAD, SAFE CHUCK

Easy to see the treatment area thanks to a small head diameter. Bur is safely nested in the strong chuck mechanism.

### LIGHTWEIGHTED AND RELIABLE

Work easier with less stress to your muscles thanks to low weight. Durable material ensures long life and longer lasting surface quality.

### WORK FAST

FONA Eagle can spin your bur at up to 200,000 rpm and thanks to the quick INTRAmatic connection, push button and effective cooling allows fast uninterrupted work.

# FONA Stork straight handpieces

## PERFECTLY ILLUMINATING, LASTING, VERSATILE

Master your prosthetic work with FONA Stork straight handpieces. FONA Stork Advance LUX is equipped with lighting for perfect illumination of your grinding and finishing spot. Thanks to its sure grip finishing and ergonomic design the work is both safe, precise and enjoyable.

### PERFECT ILLUMINATION

As one of few straight handpieces equipped with the lighting it illuminates perfectly the working spot.

### EXTREME DURABILITY

Single material body construction is extremely resistant to damage and ensures longer life of your instrument.

### VERSATILE USE

Ready for standard tool lengths but also for short versions thanks to included bur reduction.

# FONA Jet air motors

## SIMPLY RELIABLE

FONA Jet air motors are designed for long-lasting performance. With the forward/reverse switch and external cooling it is the perfect solution for dentists and dental students. Available in version for Midwest or Borden, it turns every turbine hose into the low-speed ready solution.

### GERMAN QUALITY

Made in Germany with care and precision for long lifetime and comfortable use.

### EASY CONNECTIVITY

Designed to fit to Midwest 4 hole or Borden 3 hole hose.

### SURE GRIP SURFACE

Finishing optimized for sure grip under various treatment conditions.

- Work faster, with more power and less effort
- Dedicated sure grip zone for even safer operation
- Quiet spray with high cooling efficiency
- Fulfilling highest hygiene standards, autoclavable at 135°C
- Anti slip finishing for even easier and safer use
- Reliable everyday solution thanks to durable construction and material
- Easier maintenance and cleaning thanks to the smooth surface

# Every dental solution you need, FONA

Through decades of experience in dental business, deep understanding of dental specializations and use of modern technologies, FONA delivers complete, reliable and accessible dental solutions.

Together with our extensive network of business partners, we are closer to you around the world and support you in providing every patient with a healthy and happy smile.

## Complete portfolio of reliable dental technology

## Based in Europe, available worldwide
